About Our Teaching Resources and Pedagogy

Our interactive teaching resources and rich feature-set make us the best academic delivery platform in the industry. Hundreds of top international schools and users from across 51 countries depend on us as their academic delivery solution.

Our Awards

In partnership with ING Impact, **mySecondTeacher Nepal** aims to facilitate resource accessibility while ensuring academic excellence. The Physical Textbooks from our partnered publication, ING Impact, is backed by technology and are curated to support holistic education, offering a wide range of additional interactive learning content such as videos, exam notes, and eBooks backed by our platform's features to scribble, take notes, bookmark pages, narrate audios, and listen to audio summaries. Pages from these books might even be digitally assigned to students as homework and marked digitally by teachers. Additionally, our Physical Textbooks consist of quizzes and QR codes for relevant video explanations or access to corresponding eBook chapters.

Our key learning resources include Physical Textbooks and eBooks with Topic-wise Videos for Grade 8 - Grade 12, as well as Interactive Videos for Grades 10, 11 & 12 for the SEE and NEB Board examinations respectively mapped as per the curriculum developed by Curriculum Development Centre (CDC), Nepal.

The Interactive Videos (IVys) are based on a dialogic teaching methodology and thus incorporate conversational teaching methods between a teacher and a student to simplify complex concepts. In addition, diagnostic quizzes are integrated within the IVys to support understanding, reinforce retention, and ensure mastery. Topic-wise Videos, on the other hand, focus on practical learning through experiments and demonstrations for various topics aligned with the syllabus.

Our Offerings

We offer Physical Textbooks and eBooks with Topic-wise Videos for Grade 8 - Grade 12, 5,000+ Interactive Videos for Grades 10, 11 & 12 for the SEE and NEB Board examinations, respectively mapped as per the curriculum developed by Curriculum Development Centre of Nepal.
